

SERBIAN ACADEMY OF SCIENCES AND ARTS

MISSION AND ACTIVITIES

- serves as Serbia's highest scientific and artistic institution
- develops and promotes science and the arts through fundamental and applied research, publications, and public engagement

DEPARTMENTS

- Mathematics, Physics & Geosciences
- Chemical & Biological Sciences
- Technical Sciences
- Medical Sciences
- Language & Literature
- Social Sciences
- Historical Sciences
- Arts

INTERNATIONAL COOPERATION

- bilateral researcher exchange agreements
- participation in EU and other funded programs
- membership in global, European, and regional scientific associations (e.g. IAP, ISC, UNESCO, ALLEA, EMAN, DAC)
- hosting and attending international scientific events

KEY PROJECTS

- demographic issues, public health, environmental protection, scientific and economic strategies, education, AI, biotechnology and nanotechnology, agriculture, and rural development
- focused initiatives related to science: scientific excellence, ethics, science-policy dialogue, open science, equality in science, scientific publishing....

OPPORTUNITIES FOR COOPERATION

- strengthen connections with international and regional organizations, policymakers, and funding bodies through partnerships
- provide policy guidance and science-diplomacy advice, and support
- assist with the organization of international scientific conferences and symposia
- participate in programs that address pressing global challenges (climate change, pandemics, AI...)
